Many people imagine they have heart, kidney, liver and bilious diseases when in trouble is not caused by organic irregularities other than imperfect digestive action. However, the pressure of a stomach distended by foul gas and undigested food is the starting point from which a large number of the serious, well-known and common diseases originate. Heart and Kidney Trouble, Bilious Disorders, Obesity, Jaundice, Dyspepsia, Gall Stones, Colds, Catarrh, Cholera Morbus, Lumbago, Rheumatism, Gout and Apoplexy often follow disordered conditions of the digestive organs.

Promptly relieve and permanently cure all forms of indigestion and stomach irregularities. They are an effective remedy sold by druggists for Nervous Dyspepsia, Indigestion, Catarrh of the Stomach, Heartburn and similar troubles.

## INVADING INDIANS ORDERED ARRESTED.

Five Hundred Redskin Hunters to Be Expelled From the White River Country.

Denver, Colo., Nov. 24 .- "Arrest the Invading Indians." This was the order Governor Thomas gave Tom Johnson, Game Commissioner, at the conclusion of a conference in the Gov-

ernor's office to-day. Commissioner Johnson and Deputy Holland at once made arrangements to leave for the White River country, where 5.0 Uintahs and Uncompangre Utes are said to be slaughtering deer by the hundreds.

The Commissioner would say nothing concerning his plans for action, except that he proposed to go into Routt County, secure the co-operation of a posse of from fifty to 105 men, led by the Sheriff, and then march t against the Indians.

In the event the reds put up a fight the executive has promised that the posse shall lation served, 675; carrier, C. T. Burk. Hamburg, Fremont County; population served, 675; carrier, C. C. Hammond.

Olive Street Deal Involving \$425,-000 Was the Dominating Feature.

Many Transactions Almost Closed -Committee Meeting To-Morrow - Realty Notes-Agents' Reports.

Late on Friday evening the transaction by which the Empire building on Olive between Ninth and Tenth streets changed owners was definitely closed, after several false alarms. It is reported in detail elsewhere. It involves a consideration of \$425, 600, and is one of the heaviest deals of the scason. Beyond this the week was not fruitful, although an almost unexampled number of good things are ready to recelve the coup de grace that for some reaon or other cannot yet be given.

Loaning is still in an unsettled condition wing to the sinister effects of amendment No. 3. Some agents are making no loans at all, others are proceeding with caution nder the old system, while a third contingent are requiring special agreements in each case. Now that the official result of the voting has been declared, by which the adoption of the amendment by over 70,000 majority is a matter of record, the Governor's specific announcement that the amoundment is part of the Constitution of the State is daily looked for. In the mean-time the Real Estate Exchange, whose special committee, composed of C. C. Crone, E. C. Rowse and A. G. to clear the hazy atmosphere surrounding this matter.
Attorney General Crow's opinion that the provisions of the amendment will apply to all existing deeds of trust created some perturbation, but it is believed that a later decision of the California Supreme Court than those quoted by General Crow very considerably modifies the situation, and that where, as is generally the case here, the deed contains an express stipulation that the mortgagor shall pay all taxes that are or may be assessed against the property, such contract cannot be voided by any constitutional amendment.

Transfers of the Week. One hundred and three deeds transferring realty were filed at the Recorder's office during the week ending Friday evening. The total considerations named were \$226, 188. (Two hundred and thirty-six thousand one hundred and eighty-eight dollars.)

## EXPECTS THANKSGIVING RUSH.

Marriage License Clerk Gives Advice to Prospective Couples.

Marriage License Clerk Filley advises that all persons who intend to procure licenses this week, prior to Thursday, should call to-morrow or Tuesday to avoid the usual rush on the Wednesday preceding Thanksgiving Day. Those who postnone the duty until the last minute are liable to be disappointed, and be unable to obtain licenses, as the throng of young couples generally is so large that the officials find it almost impossible to accommodate all.

icials find it almost impossible to accommodate all.

On Thanksgiving Eve as many as 200 documents are usually issued, and on Monday and Tuesday the record surpasses the records of other holiday seasons, not excepting even Christmas and Easter. Mr. Filley looks forward to this busy week with as much complacence as possible. He has sorted a great number of documents, has gathered a bunch of new pens and penholders, and arranged all preliminaries. The marriage license office will be closed Thursday, as will all other offices in the new City Hall, Thanksgiving Day being a legal holiday.

## BRIDE-ELECT GOT LICENSE.

Miss Wochrmann Came to Aid of Her Fiance.

Miss Gertrude K. Woehrmann of No. 2136 Oregon avenue will be married to-day to L. J. Ritschy of Chicago. The young lady called at the marriage license office yesterday, with her father, and obtained the license, explaining to Clerk Filley that the bridgeroom elect, who is an electrician, would not arrive until to-day, being unable to procure leave of absence from work.

Mr. Ritschy took a vacation several months ago, in order to be married, but became ill. When he applied for another short leave it was denied him. The bride elect was causal to the predicament and succeeded in getting the license yesterday without Mr. Ritschy.

#### MAN'S BITTEREST CUP IS THE LOSS OF MANLY POWER.

When a man has lost his manly power, that one great and pre-eminent attribute of his sex, when he realizes the everlasting disgrace that attaches to an impotent man, he is overpowered with a feeling of shame and descondency. Life loses its charms and everything looks dark and gloomy to him. When this condition exists he should seek the aid and counsel of a physician, one who can by skilful, scientific treatment, restore to him his lost power, and enable him to once more become a man among men, and to cause him to feel that he is a manly man in all that the term implies.

With some the disease is in a more advanced stage than with others, but no matter how far it has progressed, unless its course is stayed, it will continue its ravages until it brings the victim to a premature grave; or, still worse, to that living death—an insane asylum.

The manner of attack of this dread malady and its symptoms take a wide range and vary in different individuals. It is caused mainly through indiscretions of youth, excesses in later years or dissipation, although it is sometimes brought on by overwork or a severe mental strain, due to business worry or other cares. ITS VICTIMS ARE FOUND AMONG YOUNG, MIDDLE-AGED AND OLD MEN. The sufferer will notice that where formerly he feit energetic, ambitious and a general desire to "get a hystle on" and push his way through the world, he now feels weak, tired, listless and indifferent and has a "don't care" feeling. He is casily fatigued and feels unequal to any great physical or mental effort. There is an inability to concentrate the mind. The eye lacks its former luster. He is troubled with gloomy forebodings and is irritable, cross and easily amoyed. He don't sleep well, and in the morning feels fatigued and how or out instead of vigorous and refreshed as in health. He lacks confidence; pimples appear on the face; he has pains in the back and head, and the extremities are cold because of impaired circulation. He has losses of vital fulds, which sap his strength, and as these losses are

#### PROSTATIC TROUBLE CAUSES WEAK, ACHING BACKS.

It is an erroneous, but nevertheless an almost universal belief that a weakness and pain in the back, especially in men, is due to diseased kidneys. This is not the case, as there are no nerves of sensation in the kidneys and diseases of these organs are known by altogether different symptoms.

Ignorant physicians will also frequently attribute pains and weakness in the back to lumbago, or rheumatism of the muscles of the back, and will treat the patient without success for such troubles. The fact of the matter is that pains in the back and a weak, bearing-down feeling, in that region or in the loins, and which is often accompanied by a frequent desire to urinate, is almost invariably due to a diseased condition of the prostate gland. These are not, however, the only symptoms of a diseased prostate, but as Doctor Milen has discovered and demonstrated in thousands of cases of prostatic troubles successfully trented by him, the relations between the prostate and the brain are of such an intimate character that all disturbances of that gland affect in a marked degree the mental capacity and will power of a man. Accordingly the more pronounced the prostatic trouble, the more pronounced will be the mental depression and mental apathy.

This gland is the very center of the male sexual system, and upon its functional activity depends the life of man and the propagation of a healthy race. Diseases of the prostate gland are so intimately allied to seminal weakness that both may be classed under one head. Diseases of the prostate gland, regardless of their nature, invariably relax and weaken the seminal duets, and seminal weakness seldom exists when the prostate gland is in a healthy condition. Severe pains in the back, loins and thighs and a generally weak feeling across the small of the back are certain indications of a diseased prostate gland. Doctor Milen's treatment for prostatitis, ulceration or enlargement of the prostate and all other diseases of this member, is a most thorough and scientific one, and is purely o

## CONTACIOUS BLOOD POISON.

Blood Poison is, in its mildest form, a wretched and disgraceful disease, one which is always to be dreaded. If neglected or improperly treated, and the virus is allowed to enter the system and the disease thus to become, as it is termed, constitutional, it becomes a most loathsome and filthy disease, undermining the constitution, destroying the general health and sapping the very foundation of life, rendering the sufferer a mere wreck in both body and mind, disgusting to himself and shunned by all around him. It is not sufficient in order to eradicate the disease from the system that the primary ulser at the time of infection should merely be healed. A thorough constitutional treatment is necessary from the beginning, otherwise the disease develops later on in what are termed the secondary and tertiary stages. These stages are manifest by a variety of symptoms, such as aches in various parts of the body, particularly in the knees and lower limbs. The hair and eyebrows fall our, pimples appear in the scalp, copper-colored spots on various parts of the body and mucous patches in the mouth.

Doctor Milen's treatment for blood poison in all its stages is absolutely the most perfect, thorough and effective ever discovered. He stakes his professional reputation upon its unfailing success, and he guarantees a positive and speedy cure in every case. By his system of treatment every vestige of the poison is thoroughly eradicated from the system, never to return.

## STRICTURE.

The great prevalence of Urethral Stricture, its disastrous and often fatal results, makes it a disease demanding most skillful treatment. No aliment of mankind is more dangerous to the general bealth than Urethral Stricture, and none has been subjected to more flagrant maltreatment. It is surprising that in this enlightened age doctors continue the barbarous, painful and useless method of cutting to remove stricture. Stricture is a granular and not a muscular formation, and as such must be dissolved and digested by chemical action. Cutting, dilating and other barbarous methods are only practiced by the ignorant and unskilled. Doctor Milen's treatment for stricture is a painless one.

It is not known or used by any other physician in this country, being purely his own discovery. The treatment is easily administered, and it quickly and permanently dissolves the stricture, removing it root and branch, and in so doing all reflex and associate troubles also disappear.

## VARICOCELE.

Varicoccle is in substance an accumulation of sluggish blood in the veins of a weakened and diseased scrotum. It is both a cause and effect of seminal weakness. Doctor Milen cures varicoccle without an operation by his own original method.

HOME TREATMENT BY MAIL.

A personal visit at the office is always to be preferred, but for those who live out of the city and are unable to call. Doctor Milen has developed a system of home treatment by real that is entirely his own. Write him candidly concerning your troubles and he will give you his opinion by return mail, free of charge.
